

Figure 1

Total federal R&D obligations: FYs 1951–2023

Note(s):

Gross domestic product implicit price deflators (2017 = 1.00000) were used to adjust current dollars for inflation. The federal fiscal year cycle changed in FY 1977, from 1 July–30 June to the current 1 October–30 September cycle; no data were collected for the 3-month transition period of July–September 1976. FYs 2009 and 2010 obligations include additional funding provided by the American Recovery and Reinvestment Act of 2009. Beginning in FY 2016, development obligations were more narrowly defined as “experimental development,” most notably excluding Department of Defense Budget Activity 7 (Operational System Development); thus, data from FY 2016 on are not directly comparable with previous years. FYs 2020–22 obligations include additional funding provided by supplemental COVID-19 pandemic-related appropriations.
